

## EUROLUB EAP 220 KRAFTSTOFF- UND EINSPRITZSYSTEMREINIGER

<b>Description:</b>	Highly effective solvent combination with surface-active additives for the optimum functional protection of the injection and fuel system of all two- & four-stroke gasoline engines. Removes and reduces resinous and crystalline deposits on injection valves, flow dividers and feed pumps. Cleans the upper combustion area, protects the entire system from dangerous corrosion and neutralizes condensation. Improves exhaust emissions, reduces fuel consumption and increases engine performance. Matched to the latest engine and injection technology.
<b>Usage:</b>	After all repairs and adjustments to injection systems, spark plugs and cylinder heads and at every inspection. Add the content of the can to the fuel tank before refueling. 300 ml is sufficient for approx. 60 liters of fuel.
<b>Delivery:</b>	Art.Nr. 003737      24 x 300 ml      bottle
