

EUROLUB FELGENREINIGER

| | |
|---------------------|--|
| Description: | <p>Special liquid for gentle cleaning material of alloy and steel rims.</p> <p>Because of its gel-like consistency the cleaner is liable to vertical surfaces and can therefore penetrate and relieve excessive dirt in the bowl rim and hub.</p> <p>The novel formulation binds the iron particles in the brake dust, seen from a deep red color of the active ingredient. The bound dirt can be easily washed off with a water jet. Even after prolonged exposure time to take the rims no damage.</p> |
|---------------------|--|

| | |
|---------------|---|
| Usage: | <p>Do not use on hot rims. EUROLUB rim cleaner evenly and cover spray on the rims to be cleaned and leave for about 5 minutes. Help out with heavy dirt with a sponge or soft brush. Then rinse the loosened dirt with a strong jet of water.</p> |
