

EUROLUB MELKMASCHINENÖL 10W-30

Category:	Milking machine oil
------------------	---------------------

Product Features:	<p>Milking machine oil 10W-30 is a high-quality, mineral oil-based pressure fluid, which is specially tailored to hydraulic systems with its additives. It has anti-corrosive, foam and oxidation-inhibiting and wear-reducing additives</p> <ul style="list-style-type: none"> • Neutral to sealing elements and filter materials. • Corrosion protection if condensation occurs in the system. • Very good oxidation resistance and shear stability. • Good air separation (LAV) and water separation capacity (WAV).
--------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Application:	<p>Milking Machine Oil 10W-30 is suitable for all lifting equipment, precision hydraulic machine tools, hydraulic governors and torque converters, as well as all hydraulic systems that require HVLP / HLP pressure fluids.</p> <p>When using hydraulic fluids in hydraulic systems, the viscosity specifications of the machine manufacturer must always be observed.</p>
---------------------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Delivery:	Art.-Nr. 520020	20 Liter	plastic can
	Art.-Nr. 520060	60 Liter	hobbock
	Art.-Nr. 520208	208 Liter	drum

The data provided are subject to change. Operating rules of the manufacturer. Characteristics are typical of current production data are subject to change. This should describe the products and should not therefore intended to assure certain properties. Obligation can not be derived.
