

## EUROLUB DESTILLIERTES WASSER

|                  |                     |
|------------------|---------------------|
| <b>Category:</b> | demineralized water |
|------------------|---------------------|

|                          |   |
|--------------------------|---|
| <b>Product Features:</b> | Distilled water was demineralized by reverse osmosis and is therefore free of solutes and is suitable for all applications where pure water is needed suitable. |
| <b>application:</b>      | Use it is with a car battery, automotive radiators, steam iron, spray plants, air humidifiers, aquariums, laboratories and many other applications.             |
|                          | <b>CAUTION:</b><br>Distilled water is <u>not steril</u> and thus <u>not suitable</u> for Infusions and dialysis solutions.                                      |
|                          | <b>advantages:</b><br>-no residues at evaporation<br>-no calcification of devices<br>-no interactions of dissolved substances                                   |

|                             |                        |

| <b>Delivery:</b> | Art.-Nr. 819002 | 2 liter         | can                       |
|                  | Art.-Nr. 819005 | 5 liter         | can                       |
|                  | Art.-Nr. 819025 | 25 liter        | can                       |
|                  | Art.-Nr. 819060 | 60 liter        | hobbock                   |
|                  | Art.-Nr. 819208 | 208 liter       | drum                      |
|                  | Art.-Nr. 819100 | 800-3.000 liter | container per destination |

# PRODUCT INFORMATION

## Technical data:

| Data                | Unit   | Method | EUROLUB<br>DESTILLIERTES WASSER |
|---------------------|--------|--------|---------------------------------|
| Conductivity:       | µS/cm  |        | < 10                            |
| pH value:           |        |        | 5,0 – 7,0                       |
| Evaporation residue | mg/l   |        | < 3,0                           |
| Chloride:           | mg/l   |        | < 0,5                           |
| Nitrate:            | mg/l   |        | < 0,5                           |
| Sulphate:           | mg/l   |        | < 0,5                           |
| Ammonium:           | mg/l   |        | < 0,5                           |
| Sodium:             | mg/l   |        | < 0,5                           |
| Calcium:            | mg/l   |        | < 0,5                           |
| Magnesium:          | mg/l   |        | < 0,5                           |
| heavy metals:       | mg/l   |        | < 0,1                           |
| Colony count        | KBE/ml |        | < 20                            |
